

Fox Valley Conservatives

The Fox Valley Conservatives organization is a group of conservative citizens in the Appleton/Fox Valley area interested in local, state and federal issues that impact our lives.

We seek to inform, educate and activate those who share our values.

We seek to influence elected officials at all levels of governance.

Our Values:

Constitutional Government

All levels of government must be consistent with, sanctioned by, or permissible according to the system of fundamental laws and principles that prescribes the nature, functions, and limits of a government.

Government is in accordance with, and supports both the US and State Constitutions, using strict and original interpretation of the Constitutions.

Respect for State Sovereignty\States Rights

Sovereignty establishes the full right and power of a state to govern itself without any interference from outside sources or bodies.

Government preserves the sovereignty of the State except where the Federal Constitution explicitly grants Federal supremacy over the State, using strict and original interpretation of the Constitution.

Traditional Values

Traditional values mean a collection of guiding principles; what one deems to be correct and desirable in life, especially regarding personal conduct.

Government supports the values stated in the preamble of the Declaration of Independence:

We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness. That to secure these rights, Governments are instituted among Men, deriving their just powers from the consent of the governed, That whenever any Form of Government becomes destructive of these ends, it is the Right of the People to alter or to abolish it, and to institute new Government, laying its foundation on such principles and organizing its powers in such form, as to them shall seem most likely to effect their Safety and Happiness.

Fox Valley Conservatives

Limited and Appropriate Government

(A law or administrative rule, issued by government, used to mandate or prescribe the conduct of the citizens.)

Fiscal Responsibility

Fiscal Responsibility is a moral contract to maintain a financially sound government for future generations on the understanding that a functional society is difficult to maintain without a financially secure government.

All levels of government authorize allocation of public resources wisely, where constitutionally allowed, only where necessary.

Free Market Principles

Free market principles is any market in which trade is unregulated; an economic system free from government intervention.

Government favors free market solutions over government intervention.
Government disfavors crony capitalism.

Transparency

Transparency provides government that is open and public; having the property that theories and practices are publicly visible, thereby reducing the chance of corruption. Obvious; readily apparent; easy to see or understand.

Government supports free and open legislative processes.

Government actions (especially legislation) are presented, passed, and executed in a manner that allows full opportunity for citizen review, comment, and feedback.
